## 题目内容

#1 Some people like to specifically plan how they will spend their free time. Others prefer to keep their free time open and not schedule activities in advance. Which do you prefer and why?

## 你的回答

hello i want to go to a school is very good so i prefer keep my time in the scenery it's very good so what's the special time i can react myself it's good for me to have a relaxation□

## AI 参考答案

I strongly prefer to keep my free time open rather than scheduling it in advance. This approach allows for greater flexibility and spontaneity, which I find essential for genuine relaxation. For example, if I have a free Saturday, I might decide at the moment to go for a hike if the weather is nice, or visit a friend if they call. A rigid schedule can feel like an extension of work, creating unnecessary pressure. By leaving my time unstructured, I can truly unwind and respond to my mood and opportunities as they arise, making my leisure time more refreshing and personally meaningful.

## 问题与建议

□ 问题: ['Off-topic response', 'No clear stance', 'Lack of development']

□ 建议: The response fails to address the prompt's core choice between planning free time or keeping it open. It introduces unrelated topics ('go to a school'), lacks a coherent opinion, and provides no logical reasoning or specific examples. The language is fragmented with grammatical errors, and it does not fulfill the basic task requirement of stating and justifying a preference.
